

Common Repository Working Group

2019/2020 Update, 2021 Plans

AIRR Common Repository Working Group (CRWG)

- Purpose
 - ***To promote and facilitate deposit, access, and sharing/reuse of IG and TCR AIRR-seq datasets*** through the creation of common repositories that enable:
 - standardized queries of processed AIRR-seq data.
 - re-analysis of raw and processed AIRR-seq data utilizing repository analysis tools.
 - download of raw and processed AIRR-seq data for offline re-analysis.
- Who we are:
 - Co-chairs: Brian Corrie, Lindsay Cowell
 - Members: Meredith Ashby, George Blanck, Felix Breden, Tania Bubela, Syed Ahmad Chan Bukhari, Christian Busse, Brian Corrie (Co-lead), Scott Christley, Lindsay Cowell (Co-lead), John Harting, David Klatzmann, Uri Laserson, Bjoern Peters, Artur Rocha, Adrien Six, Adrian Thorogood, Eric Waltari, Corey Watson, and Yariv Wine.

Plans for 2019/2020 (from Genoa meeting)

- Recommendations: Continue to adapt as required
- Finish AIRR API specification
- Ontologies: Continuing to work on Ontology sub-working groups
- Registry: Programmatic registry that is searchable
- Meta-analysis working group
- Manuscript - AIRR Community endorsed

AIRR CRWG Recommendations - Updates

- AIRR 2020 Meeting CRWG Recommendations
 - <https://github.com/airr-community/common-repo-wg/blob/airr-2020/recommendations.md>
- Housekeeping
 - Shortening of recommendation titles
 - Consistent use of terminology (e.g. “repository” over “database”)
 - Addition of explicit mention of standards (MiAIRR, DataRep, ADC API)
- Structural changes
 - R5 & R6 - Order reversed, minor wording changes
- Updates to “Next Steps” match 2021 plans
- ***Future: Continual updates as required***

AIRR Data Commons (ADC) API

- Web API: Programmatic mechanism to query/download AIRR-seq data
- ADC API v1.0 released
- ADC API Manuscript (Frontiers in Big Data - DOI: 10.3389/fdata.2020.00022)
- ***Future: Extending ADC API***

TECHNOLOGY AND CODE ARTICLE

Front. Big Data, 17 June 2020 | <https://doi.org/10.3389/fdata.2020.00022>

The ADC API: A Web API for the Programmatic Query of the AIRR Data Commons

 Scott Christley¹,  Ademar Aguiar^{2,3},  George Blanck⁴,  Felix Breden⁵,  Syed Ahmad Chan Bukhari⁶,  Christian E. Busse⁷,  Jerome Jaglale⁵,  Srilakshmy L. Harikrishnan⁷,  Uri Laserson⁸,  Bjoern Peters^{9,10},  Artur Rocha², Chaim A. Schramm¹¹, Sarah Taylor¹², Jason Anthony Vander Heiden¹³, Bojan Zimonja⁵, Corey T. Watson¹⁴, Brian Corrie⁵ and Lindsay G. Cowell^{1*} on behalf of The AIRR Community[†]

AIRR Data Commons

- AIRR Data Commons
 - Network of AIRR Compliant Repositories (AIRR Standards, ADC API)
 - Three large repositories (AIRR COVID-19, iReceptor Public Archive, VDJServer)
 - 4 billion annotated sequences, 6013 repertoires, 60 studies, 3 repositories
 - Significant COVID-19 data
 - 1 billion annotated sequences, 3489 repertoires, 19 studies, 2 repositories
- ***Future: Advancing AIRR Data Commons***
 - ***More data, new repositories, community engagement***

1,070,305,731 sequences (3489 repertoires) returned from [2 remote repositories](#), [13 research labs](#) and [19 studies](#).

Ontologies

- Sub-working group struck to focus on Ontology use
 - Spanned many working groups, sprint focused (short “vigorous” work periods)
- Sprint - 04/2020
 - See full Sprint Report on AIRR Community Docs and MinStd report
- ***Future: Continuing to work on Ontology sub-working groups***

AIRR-seq Repository Registry (AIRRrr) ☺

- It is hard to find repositories that store AIRR-seq data!
- What is an AIRR-seq repository registry?
 - A place to **discover** AIRR-seq data repositories
- Current registry (manual discovery!!!)
 - [AIRR Data Commons documentation page](#)
 - [AIRR-seq data repositories on b-t.cr](#) (not all AIRR compliant)
- 2019/2020 plan: Programmatic registry that is searchable
 - Did not progress on this task in 2019/2020
- ***Future: Programmatic AIRR Repository Registry***

Meta-analysis working group

- Proposed/discussed at Genoa meeting
 - Not enough interest, so did not proceed...

Leadership - co-chairs

- Leadership changes
 - Remaining: Brian Corrie, SFU
 - Leaving: Lindsay Cowell, UTSW (AIRR Exec Chair)
 - New Co-chair: Artur Rocha, INESC TEC, Portugal

AIRRrrr!
There be treasure...

Big Picture - AIRR CRWG Plans 2020/2021

- Outward focus - Focus on promoting/advancing the AIRR Data Commons
- Moving standards/specifications work to new Standards Working Group
- Please join us!!!

Summary - AIRR CRWG Plans 2020/2021

- Outreach to community to expand the AIRR Data Commons
- Manuscript - AIRR Data Commons from the user perspective
- Outreach to Journals and Funders to adopt AIRR Standards/Data Commons
- Recommendations: Continue to adapt as required
- Registry: Programmatic registry that is searchable
- Standardized consent for data sharing (with Legal & Ethics WG)
- Standards WG related plans
 - Continue to evolve the ADC API specification as the AIRR specification evolves
 - Ontologies: Continuing to work on Ontology sub-working groups
 - Persistent identifiers: PIDs required for the AIRR Data Commons
